-By Khong Yee Juan & Darryl Tan-

- SMK USJ 12-

Summary

It was a dark and stormy night...*BROOMMMM* Bruce was awoken by a loud cackle of thunder. Bruce sat up quickly to see what had just ruined his beauty slumber, and grumbled when he realized it was just the sound of thunder... Awake and grouchy, Bruce decides to use the bathroom for a quick relief and remembered that he hadn't had his bath yet so he started filling up the bath tub and took his seat on the squeaky clean toilet seat, and the story begins~

As soon as he steps out of his bathroom, Bruce sensed that something was amiss. There was a strong smell of apples which he didn't remember smelling before he went to the bathroom. He slowly creeps into the living room and immediately sees the source of the smell. On his living room table, a basket of apples sat forlorn on the table, and he remembered that his aunt had visited him earlier that day, and she had brought the apples as a gift for Bruce. Bruce smiles to himself and decided to have an apple as they had smelled so nice, sweet and ripe.

As he takes a step towards the basket of apples, he saw a bright blue light coming from his kitchen. Curious, he takes a step towards the kitchen. As soon as he turned around the corner, he had the surprise of his life. His kitchen was totally wrecked, and what's worse was that there was a bright blue orb of light in the center of the room, being encircled with dancing blue and red flames. Immediately, Bruce gets sucked in closer towards the eerie blue orb of flames. He screams in

terror as he tried to escape to no avail, and he gets sucked into the center of the strange blue orb.

Immediately, Bruce was teleported to a peculiar room with a stranger sitting on what looked like a throne. It turned out that the stranger was a magician, and that the magician desperately needed Bruce's help in order to beat a formidable foe which was 'The Army of Darkness' and save the poor magician's dimension from being taken over by the forces of evil. The magician then bestows Bruce with some magical abilities and skills which would help Bruce to defeat the Army of Darkness. Bruce is then teleported by the magician to the battlefield where Bruce is destined to battle the battle of the century~

Will Bruce succeed, defeating the Army of Darkness and bring peace upon the land? Will Bruce fail and let the magician's world be plunged into darkness and chaos forever? The fate of an entire dimension is in your hands. Pick up the controller now and seal the fate of an entire dimension! The outcome is yours to decide. Enjoy~
